

DIRECTFLO® PUMPS

Air operated double diaphragm pumps for dosing, spraying, transferring, evacuating and distributing a wide variety of fluids.

REVOLUTIONARY DIRECTFLO® TECHNOLOGY

Directflo® pumps are based in an "inside-out" technology: the fluid is pumped through the center of the pump and the compressed air acts on outside face of the diaphragms.

- EXTREMELY FAST CHANGE OVER
- DIAPHRAGMS DO NOT FULLY FLEX WHICH GREATLY EXTENDS LIFE

Better by design

▶ PROVEN SUPERIOR PERFORMANCE

- Superior dry suction
- Non icing
- Reduced pulsation
- Variable flow rate and pressure by adjusting the air pressure

▶ RELIABLE

- Superior start up reliability
- No stalling
- Tolerates dry, damp, dirty or oily air.
- Leak free operation through the pump's life

▶ SMOOTH RUNNING

- Gentle pumping
- Reduced pulsation
- Fewer vibrations

▶ COST EFFICIENT

- Reduced air consumption
- Reduced internal pressure drop

▶ COMPACT

- One-piece fluid section
- Integrated muffler

▶ SIMPLE

- Fast and easy maintenance
- Easy operation
- Orientable air inlet

▶ DURABLE

- First quality materials
- Long diaphragm life
- Short stroke and robust construction
